NATIONAL SCIENCE WORKSHOP

With the aim of acquainting:

1. science teachers (Physics, Biology, Mathematics and Chemistry) and learners/lovers of science in both primary and secondary schools, universities and other institutions, and
2. scientists in applied sciences and in industries; with the knowledge to bridge the gap between classroom practices and entrepreneurship skills through projects;

With the view of:

1. promoting competence skillful based instruction through projects and problem solving instruction,
2. refining strategies to improve the performance in sciences and related product outputs for industrialization, and
3. to develop/rejuvenate interest, analytic critical thinking and vocational/career paths of science practitioners through research and projects in creativity and innovations;

Makerere University through the Department of Science, Technical and Vocational Education is organizing the First Biannual National Science Workshop for the year 2023.

Each participant will pay a workshop fee of UgX 65,000 only (sixty five thousand UgX) to merchant code **6233362**. Students will pay UgX 50,000 only. The Time Schedule for the workshop is:

1. **Friday 12th - Saturday 13th May, 2023** for all science teachers/instructors/professionals, and scientists in applied sciences in primary and secondary schools, institutions and universities, and in industries.
2. **Friday 19th - Saturday 20th May, 2023** for all learners/students/lovers of science and applied science in primary and secondary schools, institutions and universities, and in industries.

The workshop will be graced with prizes and certificates award ceremony by the Assistant Commissioner – University Education and Training, Ministry of Education and Sports.
